## Compositing and Motion Graphics

### Skills:

Post-production and design: Composite, roto, motion tracking, animation, FX, and a strong sense of design.

Well-versed in the following software: After Effects, Silhouette, Photoshop, Illustrator, and Commotion.

Working knowledge of Maya, Combustion, and Boujou. Talented motion graphics designer and visual effects artist.

Currently building skills in Shake and other node-based systems.

**Objective:** Seeking a creative, challenging position that excercises my skills in a collaborative environment.
